EXCLUSIVE: JANITOR STOPS GOONING TO CHILD PORN THREAD TO DELETE FROG

Oh my **Cob** explains how he **sucks so much BBC,** **bvilly** announces pregnancy

These days, it's hard to avoid hearing about Cobson's passion for BBC. But how does he do it?

"There are so many different methods, anyone can find a right fit. I love going into the ghetto until a bvilly tries to mug me. I hand over my wallet like a good paypiggy, and tell him 'I've got something else for you too, master'. And that's where the real fun starts. But if you're a newbie to BNWO, even just Grindr will do~"

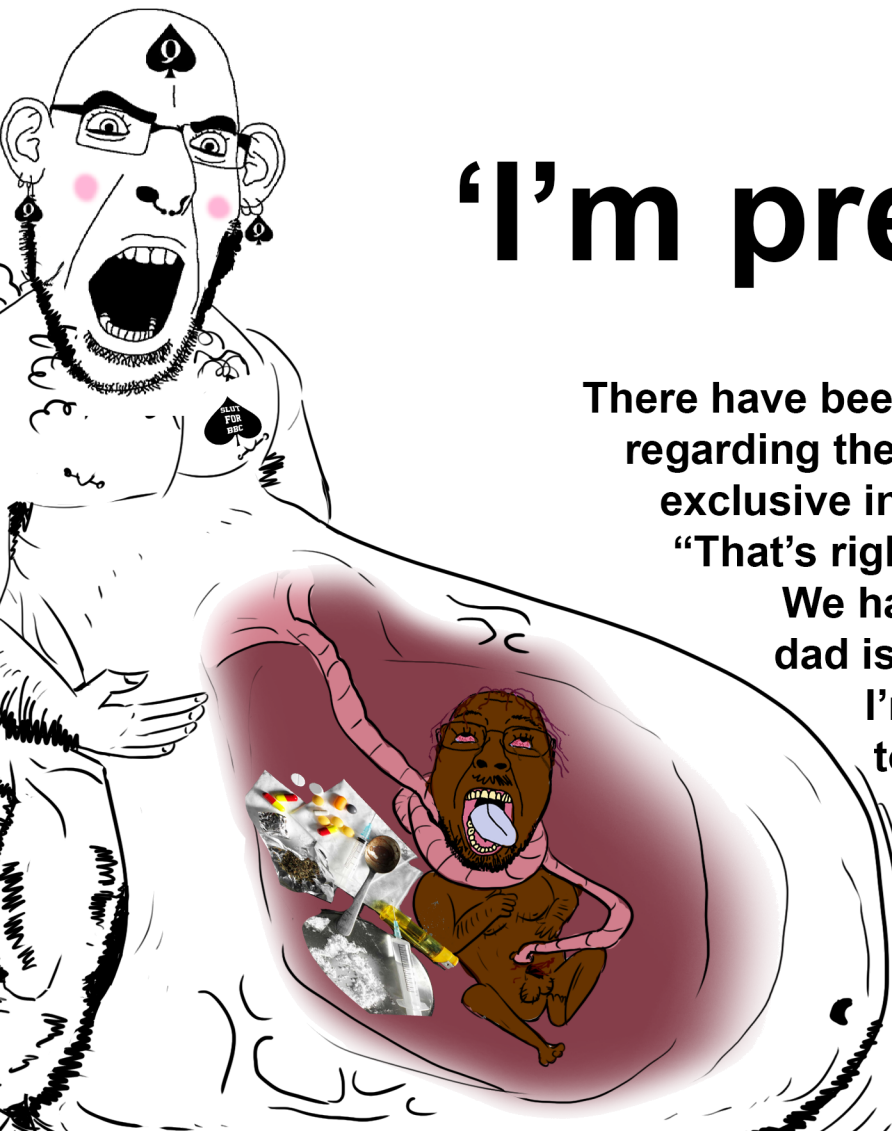

'I'm pregnant'

There have been a lot of rumours floating around regarding the cob_sovl star, and in the digest's exclusive interview, she revealed a big secret "That's right, I'm pregnant with a black baby.

We haven't determined exactly who the dad is yet, but it's not of concern to me. I'm footing the bill and I'll raise him to advance the BNWO. All I wanted

was pozzed up loads, but now I've got so much more. I'd like to thank the soyteens for their continued support and the digest for the DIY HRT guide on the 'cord. *sucks on a BBC*'

‘It was killing my vibe’

Top Kolyma mod explains choice to delete frog during ‘p raid

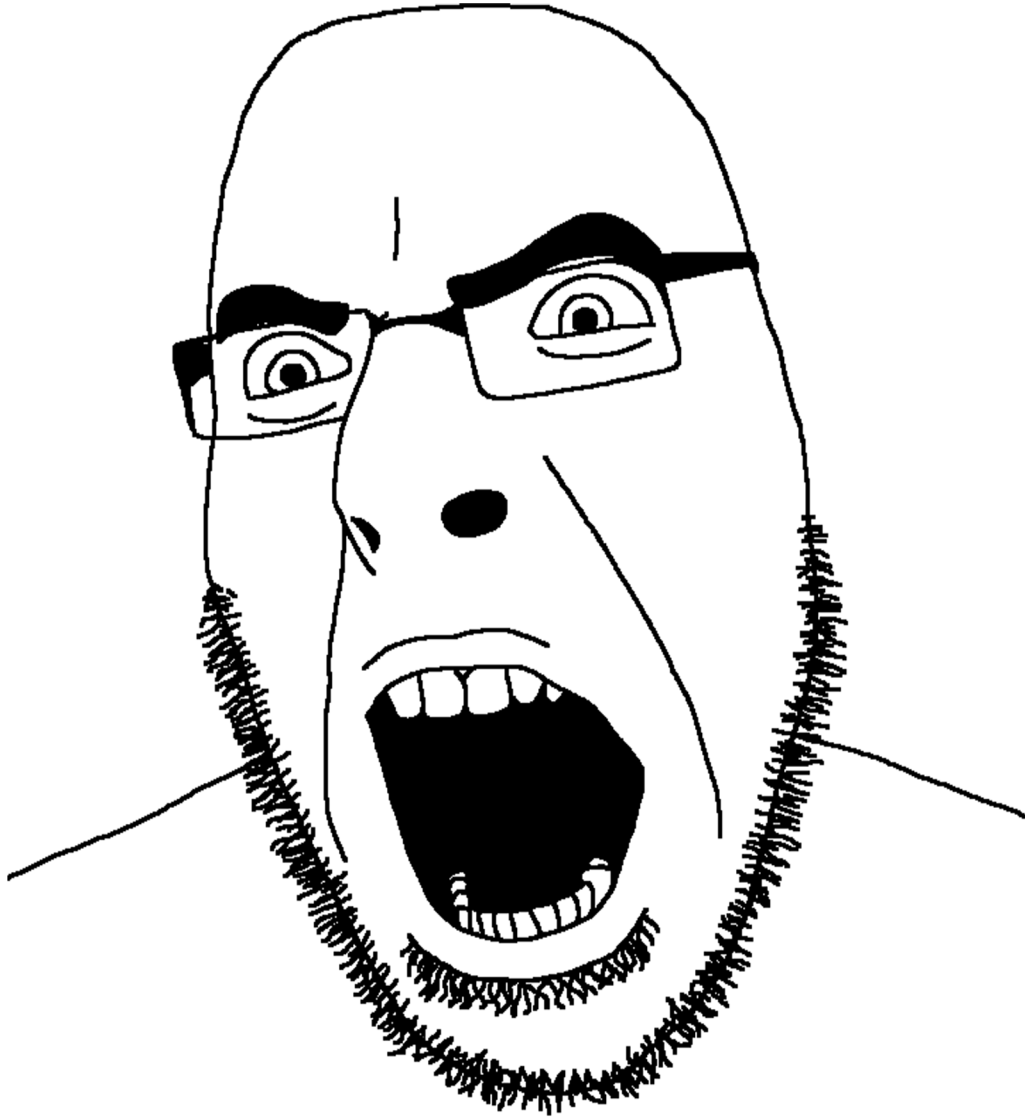

After coming under fire for prioritising the deletion of a kekking frog during a child porn raid, the janny on shift explained her [sic] decision in an exclusive call.

“Look, there I was trying to goon my boiclitty to a toddler being raped, and all I could imagine was a crowd of frogs laughing at me for being such a beta cuck. It was killing my vibe. I wanted to be reminded of my childhood sexual exploration, not being bullied by the whole school. The situation has been sorted out. The frog was permabanned so you can stop complaining. **WHAT DO YOU MEAN HE SWITCHED PROXIES?**”

The call abruptly dropped and SD has been unable to reach her [sic] since.

VARIANT OF THE WEEK

COBSON

After another week of no new OC, Cob has continued his winning streak. “No one beats the GOD for self inserting”, said a party regular. Neutralplier came in a close second.

Soyteens are starting estrogen at incredible rates - here's why you should too!

No T, no problems!

As one of the leading trans rights hubs on the internet today, it should be no surprise that soyteens are taking HRT more than ever.

Peer-reviewed scientific studies show that if you send me your address on Discord and take the pills that show up on your doorstep, you'll become a cu- hold on.

BIG KUZ IS WATCHING

Sweeping new datamining measures have been introduced to the ‘party by Kuznetsov, after downtime. This follows the removal of User JS and the suspected assassination of the original Sharty fixes developer for bypassing the Jump IP logger.

We asked a ‘teen about his thoughts on the changes:

“It’s to own the frogch- fags, so it’s good with me. Hell, I just gave Kuz my entire dox. I trust him. The 4cucks are so BTFOd right now. Why do I hear sirens?”

We reached out to Kuz for comment, but were banned for enquiring about he who shall not be named.
