eBay Buyer/Bidder History Search Tool

Experimental

How It Works: Enter an eBay User ID, and our Buyer/Bidder History Search Tool will try to display most items the user purchased or won within the last 30-60ish days – similar to the former Advanced Search by Bidder feature eBay used to offer. (Search results are subject to eBay's privacy thresholds and will omit certain items, such as active auctions, non-winning bids, Adult items, and Private Listings.)
