Table POL8: *As you may know, Democratic lawmakers recently introduced a Green New Deal resolution in the House and Senate, calling for the elimination of greenhouse gas emissions to the maximum extent possible and for meeting 100 percent of U.S. power needs with clean, renewable and zero-emission energy sources over a '10-year national mobilization.' The resolution does not set a date by which oil, gas or coal would be phased out and does not explicitly exclude energy sources like nuclear or hydropower. Based on what you know now, do you support or oppose the resolution?*

Table POL9: *And as you may know, the Green New Deal resolution calls for the creation of 'high-quality union jobs that pay prevailing wages,' local hiring and job training, along with protecting workers' right to organize, unionize and bargain collectively. Based on what you know now, do you support or oppose the inclusion of these policy goals in the Green New Deal?*
