Subject: Metabiota next week

Hunter, Eric and Rob,

We had a great dinner with Nathan and Robert from Metabiota last night. They are looking to do a series A in a few months which may allow us to mark up our investment to 5x what we paid. They are digitizing the microbial world; what Palantir is to the CIA, Metabiota is the USDA.

Do you guys have any rshps at DHS that would be helpful to them? They asked about this last night. They may be willing to pay someone a retainer to be helpful to them on this front. Also, if you guys could take time to meet with Nathan and Robert when they are in the DC office next week that would be great.

Best,

John
