X-Change

Fast-acting, temporary, gender-swapping pill

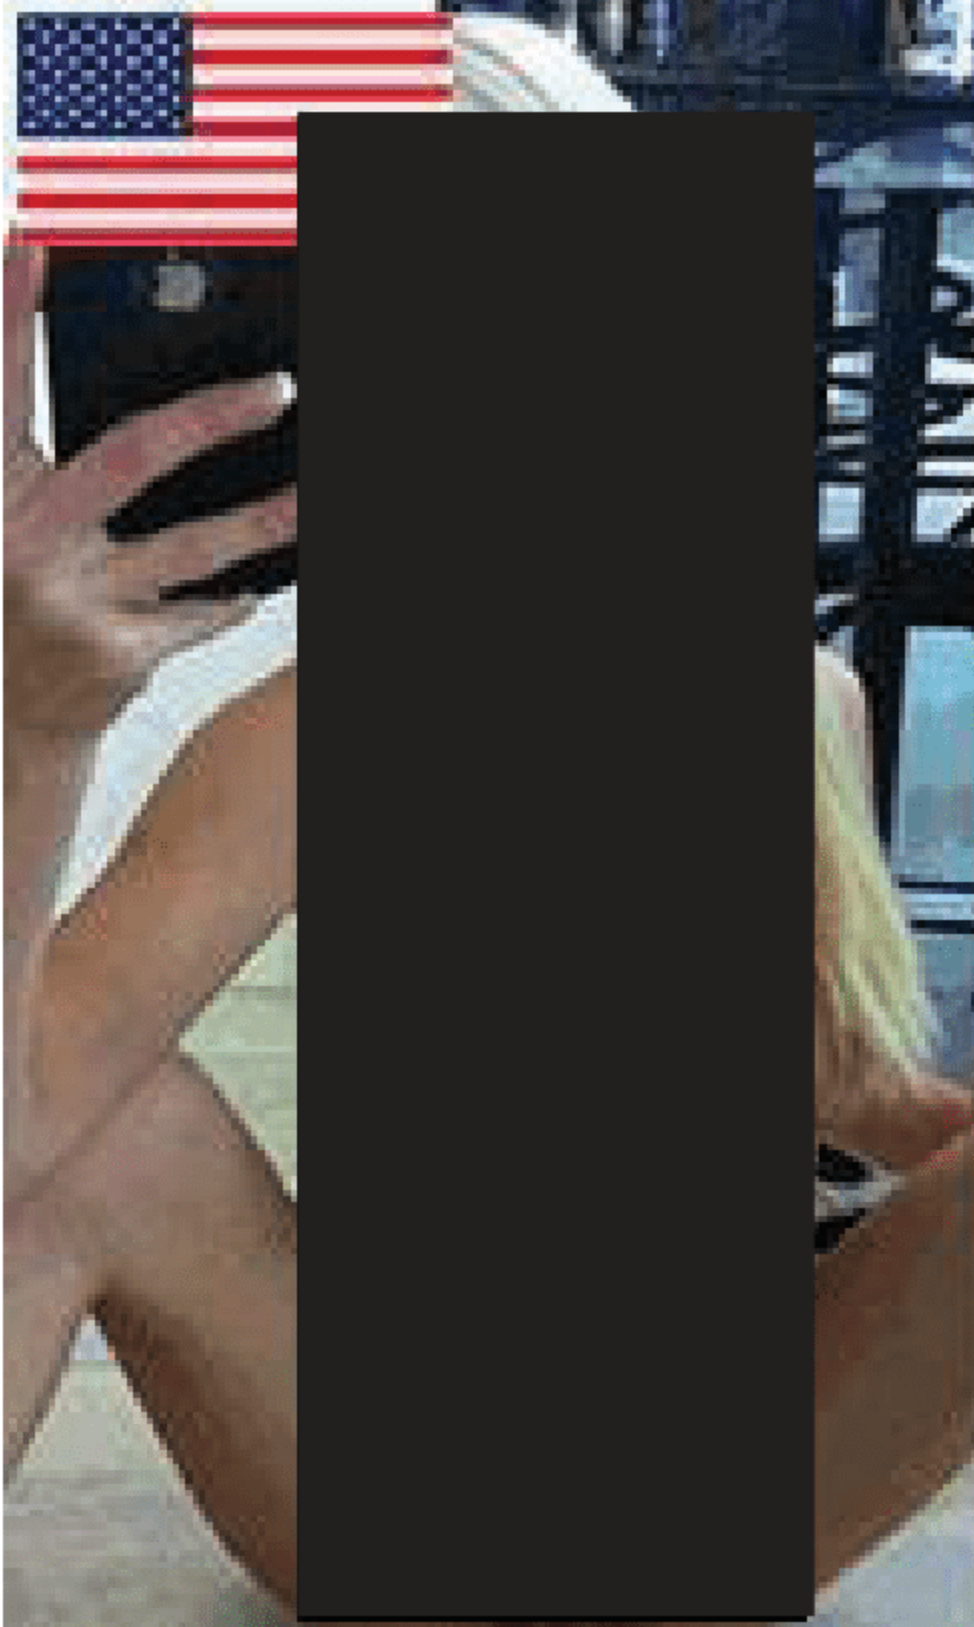

"My buddy really needed to get over his ex. Months after she dumped him he was still moping around his house. I told him we could do whatever he wanted, hoping it would cheer him up. What he wanted was for me to take some X-Change and put on his ex's clothes and jewelry. The good news is he finally asked someone new out on a date. The bad news is that it was me."
