

This won't be like my last doc on Zengo. In this one I want him to speak for himself. This has gone on for far too long, and I want to end it. Once and for all. Plenty of these will be cropped to protect the identities of the other people in these.

Delta225's picking apart of Zengo's video

<https://www.youtube.com/watch?v=IzSUP7gXrYk>

This video contains plenty of screenshots of Astra's last convo with Zengo as well as other screenshots from Delta's point of view. This is just a part of it all.

The upcoming segment is screenshots provided by other people.

General whinings over me not being his friend anymore (around when I cut him off on discord, he was whining to a mutual about it)

Zengo Today at 5:24 PM

Tell him Anything he says that avoid being my friend, or talking to me to give me a chance as well as unfriending and unfollowing and blocking me on discord and steam is seen and taken as hate to me
towards me
Hyper hates me

Zengo Today at 4:20 PM

Why can't hyper be my friend
and talk to me
why dammit?

Zengo Today at 4:07 PM

just keep trying for me please

Zengo Today at 4:07 PM

you don't have to drop a page on him just try to
tell him little at a time
short bursts if you get me

NEW MESSAGES

Zengo Today at 4:07 PM

Hyper is my friend I still see him as a friend
I just want him to forgive me and be my friend
again

how mad is he at me?

Like can't he just maybe give me a chance I mean
he gave guido a chance with all the shit that guy
did to him?

I just want my friend back

how hard is that to ask

Hyper should give me a chance

Zengo Today at 3:58 PM

let me prove I can be a better friend

It still puts me into depression that he is not
speaking to me

Zengo Today at 3:52 PM

Is there anyway you can just talk to him?

let him know I will not bug him anymore about
drama

I just wanna be his friend again

I don't wanna be ignored by him

sucks I never even got to save the art he made me
either

Point blank saying that he misses getting shit from me

Zengo Yesterday at 11:43 PM

He has had fights with guido and forgives him easy but I screw up one time and he blocks me on discord refusing to be my friend again
It sucks man

I been doing good ever since the astra BS and hyper still ignores me

He should forgive me like he does guido

I bet if I checked right now I will see him following astra yes even though me and astra talk again

I feel Hyper is mistreating me

Zengo Yesterday at 11:46 PM

Is there anyway he can forgive me

I do promise to not involve him in my problems

I just want my friend back

I like talking to him playing gmod with you both and getting art from him

it hurts

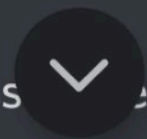

Zengo Yesterday at 11:46 PM

god now I am depressed

It hurts

it really does

He forgave guido easy many times but tossed me out because I screw up with my problems one

Guess I wasn't really a friend to you

 **Zengo** Today at 9:52 PM
a lot of things
Hyper making a google doc on me is not fair when I was told not to expose him on anything
So I have decided I am gonna make a general Apology to those who were having to deal with the actions of my anger caused by Astra fueling the harassment Pixie started
and a lot of it will also brand Hyper as a terrible example of how a friend should not be
I will point out how Guido an the others shit talked on him a lot and did horrible things to him such as VCing in wingers server one night just shit talking on hyper while he was there and yet is still friends with them yet one
thing I do wrong which not even my fault and he abandons me and makes lies about me
Hyper needs to be held accountable from my apology post I have to give all the steps and stages of what I went through and if it ends up chasing hyper off twitter then that is his punishments (edited)
Because I am gonna be leaking his secrets he did not want public as well but I am still thinking if I should or not

Valid criticisms and where one can go wrong in life

 Instant respect doesn't exist. You can lose your respect as fast as a hummingbird can flap it's wings, but getting it back could take even years. Depends on how deep you have sank in people's eyes.

 **Zengo** Ma 22:15
Fucking

 I tried to tell you that this is how people start disliking you, and perhaps help with the situation, but it seems like you got it wrong.

 **Zengo** Ma 11:00
heartless

 You still don't get that i said how others see this is funny.

 **Zengo** Ma 11:01
My words are not valid to you until they tell you no you said its funny

Because i really only came here to tell you that this is what people dislike, yet you attack me like if i was a threat for you.
Which is funny.

Zengo Ma 10:59

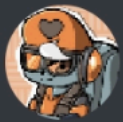

I am upset because you think my beef with bounty is funny
You and a heartless person and don't value me as a friend

Patience is key

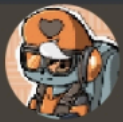

Zengo Ma 10:34

Give me something out of this
I can't do anything on my own
I'm coming to you for help
Because if I do it on my own he's going to bitch to
Winger (módosítva)
Are you trying to make it worse
Gerald?

Zengo Ma 10:35

Why are u making this so hard

I want answers

Trying to gatekeep a character he doesn't own (Neera)

Zengo Today at 1:23 PM

it maybe your choice but it means your hogging her

Zengo Today at 1:24 PM

You act like she is yours and you want to keep others from having art of her

its not right man

you cant put a rule like that

Hogging her

Hogging her

Zengo Today at 1:39 PM

I can prove it

I said you are hogging her as in keeping her to yourself

it does not mean stop drawing her

No comment.

Zengo Today at 01:43

your problems should not matter

These are lacking a lot of context from the people responding back, I am fully aware. But purely from his begging to be my friend again despite me saying no only to fire back after my first doc on him got me fired up, and the Neera gatekeeping struck a nerve in me. He needs to be held accountable for all his bullshit, lies, and drama, and I see *this* doc as that accountability.

I don't know what happened to get him booted from the GT server, but I'm inclined to believe their side of the story knowing how Zengo is.

If you've read this all the way through, I thank you once again. And Zengo? If you've read this far, then know I didn't do this for me, I did this for the sake of the fandom you've been leeching off of. You'll try to cancel me over this, I just know it. And to that I say good luck, Twitter is merely an art platform for me.

(PS, I didn't mention your age or disability. They do *NOT* justify *OR* excuse *ANY* of this.)
