Hi Jason,

Sorry for the delay. Yes, I am going to stick with the denial of records regarding the swatting/Tomlinson investigation. The reason being, that this is an open federal investigation and within the MPD reports regarding the incidents, we have joint returns from search warrant records that are pertinent to identifying the subjects in this investigation.

Thanks for reaching out!

Sincerely,
Heather

Hi Heather,

Just following up on this. Last we spoke you were leaning towards denial of records but you wanted to speak to someone first. At your convenience, please let me know the final decision and if it is a denial, just state the reasons in layman's terms and we will draft the proper denial language with the City Attorney's Office. A denial for simply being an open investigation is fine with us as well.

Thank you,
