

WATERKUMA (Lead Artist on Zenless Zone Zero) IS A PEDOPHILE

Waterkuma (水熊) and his continued work on ZZZ has been acknowledged in [various official interviews](#) and [on-stream appearances](#), with him having demonstrably designed the game's aesthetic, much of its initial characters, and the Angels of Delusion. We have two big problems here:

1. He follows Pixiv accounts that post explicit, *photorealistic* art of children.

Waterkuma's account can be tied to him using "image booru" services. He followed [around 535 accounts](#) in [January of 2024](#), decreased to 534 as of January 2026.

2. He has drawn art of children being raped.

Said images are found with searches of "waterkuma" or "nema" on relevant hentai sites, dating back to **2017**.

Examples are as follows. MiHoYo **hired a pedophile to appeal to pedophiles**; do not support this company or his work.

Warning: Extremely sensitive (censored) imagery. Please take caution before further browsing.
