Fuck you and your non stop stupid bullshit. I didn't sign up for this stupid shit and you deserve a ardent kick to the testicles for writing it out that way.

You sackless fags have a hivemind to keep fucking yourselves while calling it progressive.

Fuck you, fuck the republicans, fuck the democrats and fuck the education system that indoctrinated fuckboys like you to sell our country to China. Ever wonder who funded the CARES Act? While you candy ass bitches were huffing and puffing over "muh progressive beliefs", our Federal Reserve Bank Fiduciary (HINT: look up BlackRock) has been bailing itself and selling [US Bond ETFs](#) to China. Maybe if you piece of shit bitchasses weren't so wrapped up in social media asspats you'd see how big of a racket our government truly is.

Fuck you, you useless shitbag ideologues. Not only do you allow faggot bankers to [shit on our posterity, our kids and future](#); you do while indignantly vandalizing shit because you're too up your own ass to even notice the smell of Washington D.C. shitting on everyone. I bet you *really* do care about disenfranchisement of people while simultaneously never holding anyone accountable for the truly egregious acts. Its too late now fuckers, every politician lives to fellate Larry Fink. I wonder why the [GSA](#) was able to hand out billions of taxpayer money to companies that then get liquidated and charge the government for the job they got paid to do. Check out the [Windstream Ch. 11 Bankruptcy](#) history and tell me why that company got government bids until 2017? Why did [the CNN sale](#) so closely coincide with the [Federal Reserve taking on more corporate debt](#)? Probably because you pansy faggots are too worried about mu oppression.

Get ready fuckboy, the future started [at home](#) but it's all [going to China](#). Sorry that your faggy degree in philosophy doesn't help in stochastic modeling and you people should be charged with war crimes for fucking up our education system up so bad. Now we can all enjoy our new Huawei Alexa machines and rootkits with social scores. We don't have the necessary infrastructure to be leaders because we legitimized bullshit like Gender Studies. Better start getting ready for the QKD's stamped "Made In China".

Oh food for thought: ever wonder who makes the shit that actually does COVID diagnostics? BlackRock and China have stakes in every one. Makes sense why they are so [shitty](#) and [work with an agenda to enforce mandates](#). I bet you faggot bitches can't even name the rights you lost, so bend over and keep sucking Uncle Sam's cock for allowing you to leave your house because you're too retarded to critically think about precedents. In fact there were hospital financial incentives for COVID patients and the coroners office made a loose mandate on cause of death from covid and had to do [damage control](#).

You are punk bitches who get holed out and ghetto gag government cock. You are pathetic excuses for human pissants. You even took a man's wrongful death and turned it into a race issue when George Floyd's death could have had a real impact on rationally limiting the latitude authority figures have to fuck you. Probably a masochistic authority kink.

My bet is your mind's equation reads something like: **BBC+Me = Fuck My Shit Up Fam.**

Fuck you, and if I saw you I'd flip you the bird, **call your kids faggots** and **call your wife a stupid bitch** providing offspring to carry on your limp-wristed lineage.

Get pozzed fuckers, you're just a less violent (for now) version of the Wahhabists. You and your ilk have fucked our country and our future for the dopamine rushes of virtue signalling. You have 0 efficacy to point to other than giving testosterone blockers to confused children.

I hope the founding fathers piss napalm on you, your family and your everyone involved in your shitty organization for eternity. Too many people have died for this flag, and you ideologues honored their sacrifice by selling what was paid for in blood to China for iPhones. Can't wait for our OSHA certified suicide nets because you fuckers.

I don't want discourse with your brand of faggotry. I want you nowhere near my country or family. I want your existence to one day vanish into thin air so we can start rebuilding what your temper tantrums allowed and caused.

Go FOIA the GSA on REITs and the [SEC](#) and look at all the obfuscation. I doubt you could even comprehend what it means or are even motivated enough to do anything other than have a flashy Instagram or FaceFag. Pro-tip: they used to call it racketeering.

Fuck you all with the greatest amount of disrespect I can comprehend,

P.S.

If by divine intervention you homies can stop ghetto gagging BBC and being useless pieces of shit to unfuck yourself enough: sack up and do what is right instead of what is easy,

Every politician has two hands:

One is jerking of a banker for a lucrative retirement portfolio while **the other is fisting our assholes to fissures.**

But all their mouths service Larry Fink's cock

There is no right wing

There is no left wing faggots

There is only US getting fist fucked to the forearm by Shaq.

You're not even qualified to suck the sweat off my ballsack.

I truly do despise you.
