Hate Speech poetBOYCOTT THE GAME. THERES JUNGLE CREATURES IN IT

John Doebut why was the gay scene added tho if most people aren't going to see it. it serves little purpose

KaraThat Black character will make sense in story

iConCityhey hey

RaskolnikovVavras gaslighting is crazy lol

Hodl's Reise in den Kaninchenbau miss the 80s so much. so many world class singers gay, Nobody did give a fuck. Miss it really.

iConCityKeybinds?

HighSkilledDudeSad to see how STUPID people are, it's soo fascinating.

BFGNever thought id see mack shill so hard

C0bblersIs Old Meg in the game incase I get randy?

Sigzilwhy are people posting the same message over and over again? To make their nonsense look more popular than it actually is

yosef levpeople will play the game they will just pirate it.

Teflon Don@John Doe because black rock

Jigen Daisuke@LogPRB I have replied to you with another message. Idk if you missed that one.

LukeCan we normalise the issue here being marketers trying to make games that pander to literally everyone rather than put the emphasis on gameplay? Feel like this is the real issue here.

LogPRB@BFG hes played the game, you have not

Marcus O'reallyous...man, being in a meatsuit these days is getting hard

ElitePatriotNot sure if he is gay

Hate Speech poet@kara yeah telling us how bad they are

Gadgetus GoblinusSo many snowflakes in chat worried about being turned gay lol

priestfan81this chat was

Mr_DookSome of his reviews are shit imo cause he loves rts more than me. Its like an entire genre that I dont like

Blue Penguinimagine you are soo racist you cannot accept one black traveler person in a game

yosef levnot giving them any money

Raskolnikov@Kars impossible. A character like that would be known on history. It'll Neve make sense. Vavra knows thaty I'm sure they have tried their best.

Revolver Ocelotbut the forum controversy and the tiptoeing and turning of the lead dev was not nice

onecarI am against cancel cancel this game because I'm a moron

Teflon Don@Luke EXACTLY but he'd rather strawman our real issue

Kuroichi@BFG why dont you hope of already then damn

Leo LongevityPreorder already..

bandiii@John Doe I think it could be interesting to see (if you choose that path) what kind of consequences were there back in the day

The bloody 9the dlc will have a ginger trans dwarf black pronoun

xWorth a zBuy is the only channel i genuinelly listen to when it comes to game recommendations

Hate Speech poetImagine defending jungle creatures telling you how bad you are

LukeStardew Valley is like the worst game ever even forces you to be vegetarian and so slyly you don't even know it, and yet everyone loves stardew for the gameplay - yet it had like no marketing

Sigziltbh NEVER preorder anything. Preordering is dumb, you dont' know if a games going to be terrible.

Raskolnikov@Blue Penguin imagine being so racist that one black guy has to be included or the game about medieval Bohemia wouldn't have been made.

Ray Sissumverry zoggy

Revolver Ocelotbut if it is a roleplaying game you should play female or male or dwarf or elf^^

Samsonite34People in this chat are so pathetic. never played an RPG eh? most RPGs for the past 15 years let you choose who to romance. The woke ones put it in your face, that's what makes them woke.

Luke*wokest game ever

DanielSan21the scene still exists though.

Jim MunroThank god it single player

Marcus O'really...what about those plant, lovers?

Steve JewissYou've been able to do this in many RPGs for years, you can do it in Mass Effect ffs ! If you want to do it you can ,if not don't, like real life ! I despair at the human race sometimes !

mangaasworst part is, regardless of the optional gay quest line, the NPC AI is still dumb as bricks, and the combat is still jank. Easier, but still jank. and yes, I've played.

Anthony cant stand his defense that it is a small scene. That isnt the point. The game is no longer historically accurate or an rpg. Both are crucial to this game.

Jamie KMany subversive people and many getting laughed at for pointing out the subversion. Strange

BFG@Kuroichi can you answer for him?

madgooseTheres zero argument lmao

Jim MunroWho cares get over

It's Vince with Slap ChopWhat a shitshow this game has turned out to be, lol

Mr_DookIf its a rpg you should play white man, soldier, warior class

Jigen Daisuke@Hate Speech poet Yeah. That and turning a canonically straight man (Henry) and his womanizer friend (Hans) into pillow biters.

Hate Speech poetMac you have a bit of a boomer take here

Revolver Ocelotwhat if the geralt in the witcher had a gay option, wouldnt there be the same controversy

Setnochimaif it doesnt matter, why include it?

ManiaMediaMediumKinda sad that a man who hates woke stuff get dunked on by people who aint giving him the light of day.... Jeeez.

Z

zxbcthere's one argument, which is "I'm a homophobe and gay people trigger me"

Luke*Marketers put it in people's face. Got nothing to do with woke, all about marketers obsession with outreach at all costs

Y

yosef levino one care about a gay scene they care that the changed henry for esg money very simple.

Teflon Don@anthony he's missing the point because he thinks everyone is a grifter since that is all he's seen.

W

Watts Up!This is why I don't XShite, or Faceshite, or Instashite even the Youtube comment section is too much for me. It's not worth the time of day, so there is no controversy because I'm not paying attention

VeznerI don't even care that Mack has his opinion. He's entitled to it. But to belittle those that he disagrees with...that's not cool. Unsubbed.

Setnochimahe himself is the grifter.

Monique van Dijk Adema@Anthony there have always been people doing gay things since the dawn of time itbis historically accurate you nob
