# The analysis

EP 01: In an alternative 2015 (where Ackdos Conceived identity politics never took hold).

Most of the infrastructure has been destroyed by the Angels (more as in Demons)

The UN tries to attack them, however, their ZSP tech failed and the "Demons" destroy a lot of the city. Shinki Ikari is 14 years old and is by himself.

Until one day, he meets a girl named Miasato whose car is wrecked by "Demons".

Miasato and Ikari are driven to a laboratory called NERV. Ikari sees his dad Gendai after so long.

We are introduced to Rei Ayanami. Who was harmed from the "demon"

They are introduced to the evo unit 3. Ikari gets in and he is in a liquid filled room aboard the mech.

EP 02: We continue with where the previous episode left off. This is the first Ikari has piloted the Evo. Miasato instructed him in what to do. The Evo 3 was left to face the "demon". With how cutting edge the mech is, Ikari falls down. The thoughts of his head are connected to the mech.

The "Demon" attacks the mech and Ikari feels the pain.

"Demon" leaves the mech and Ikari is in injury. The Evo3 is the human mech based on what we learned. The screen in the

mech show the neurons of Ikari are severely damaged. This concussion makes Ikari jumpcut to a hospital (I thought a portion of the footage is missing.)

Ikari wakes up in the hospital in an unfamiliar environment and he peaks out the window and sees the evo 3 remains dragged out. The UN Socialist Eagle notices that the "demons" are being known to the public. They now want to cover it up because of the threat to the public.

The mainstream news then runs with this false story.

The person running this UN is Shinji's grandpa,

Shinji Ikari in the hallway meets Rei who is still in the hospital. Meanwhile, Miasato goes into medical details of Shinji's accident.

Shinji recovers and he is living alone in a block. Until Misato lives with him, she jokes around (but they can't take jokes).

Miasato and Shinji explore more of the city and they go out in the outskirts and they see Tokyo 3 emerge, the goal is to protect it against the "Demons". Then they return home

While sleeping, Shinji dreams about being in the evo and he gets possessed to fight it, he defeats it, but then the monster refreshes and he screams, and Shin wakes up.

EP 03: Shinji is on the evo again, to see how well he fares in a battle. Afterwards, Shinji is now going to school. Misato calls Rinji and tells her that Shinji is barely making friends. Shinji was compared to a hedgehog, a species that has a hard time sharing warmth with their own kind. "The closer they get, the more they hurt themselves."

# The analysis2

This principles applies to Shinji too, who has a extremely hard time fitting in.

Shinji overhears students talking about him.

Fast forward, we know now the teacher was politically indoctrinating students and Shinji was tired. The school uses computers to solve questions in class

People interrupted by saying that they think Shinji is the evo pilot. Then a huge harem of girls swarmed up and asked him questions. Eventually, a older boy punches shinji to assure he is not a newtype.

Then, an alarm was rung indicating that there was an emergency at Tokyo-3. A (Demon) called Shamshel was so powerful not even 2nd amendment could kill it.

The Evo is needed. Shamshel is ruthless to the point of throwing the Evo to the powerline near Shinji's classmates. Samshel then suck's the energy out of the Evo.

Evo's classmates then boarded the evo. Shinji then ingores the roll back order then tried fo impale ShamShel. But the time limits runs out and the evo is shut down.

EP 04: To the dismay of Misato, Shinji appeared to be sleeping in, trying to skip school. She tries to wake him up. But Shinji was missing and a letter was found. Toji and

Kensuke meet Misato. She gave a cover story that Shinji was at a training camp. the 2 leave and she gets mad. We now know Shinji is at the train going for away. At the end we know that he was in the train for at least 13 hours. Shinji regrets taking the train and wants to go home.

Shinji is in a really shady part of the city. Alot of traids and yakuza, and he want into a movie theater showing ZSP propaganda, there the only audience were bodys of dead moviegoers and then Shinji caught a couple making love in back of him. Shinji lost his innocence, never had seeing porn in his life. In the morning Shinji was walking alone. And he hears weird sounds. And he runs into the country skde and hides. Kensuke and Toji are camping out in the wilderness. Eventually, Shinji was located by Nerv and taken back into the labatory and Misato yells at him for not wanting to pilot the evos.

Then we learn that there are 4 people that can pilot the evos according to Gendl/ikari. 4th one (4th child) was not found yet.

Now Shinji left and resigned from nerv. She meets his 2 friends for the last time. Shinji was forced into a van Dr Phil style by Nerv.

EP 05: Gendl is attacked by a possessed unit 0 with Rei inside. Gendl got badly wounded by this.

Misato thinks Rei is mentally unstable which may have cause the possesion.

The UN now is studying(the demons) and is collecting dna on it. Shinji knows that they are his enemy

# the analysis 3

Shinji is still left out with the social circle of his school, everyone else plays basket ball with him being on the sidelines. Shinji looks at a distanced where hotties were at a swimming behaviors. Other boys look at him in disgust.

Misato sends shinji a pic of rei and thinks Shinji is horny for her.

Shinji goes to a rundown apartment that Rei lives in.

The house looks like a mental institution. Rei attacks him when he puts on her glasses. And he pulls on a shlaves with bras in it by mistake and they all fall down and shinji falls straight on her, had shinji been nude, it would have been unintentional hentai.

Shinji gives Rei her new card

Shinji tells her his honest opinion and rei smacked shinji like a indian auntie. and ran. Rei heads back to unit 0.

Shinji screams in agnony while on the evo as well. Shinji got stabbed in the chest.

EP 06: The being that was attack detsoyed a massive tank in seconds.

Japan goes into blackout to contain this being

Positrons were built to control that being.

Both machine were destroyed. and it defelected the projectile.

EP07: A phone call was made with Gendel(Ikari). They have gotten fake intel. New laws would be made in the japanese gov, but it would be derailed.

Misato goes to Shinji's school, everyone, inckuding Toji and Kensuke were making remarks about her.

On a space craft, we learned about the antarctic incident that happened 15 years before the show. The official narrative was that it was a mediator. But in reality, of was a remains of a "demon".

EP 08: Toji and Kensuke were given the ok to be in the secret project.

We learned by the navy captain that the control of Evo is now done by germany. However, Nerv's authority supercedes everyone elses.

The navy captain were surprised that children are piloting the Evos

We are introduced to unit 2. Shinji would have to go futher training and it's for real combat.Asuka, a German pilot. Introduces to hin

The (demon) is going after unit 02. Unit 02 can only understand german but can be conigured.

We see that tokyo is underwater

EP09:

# The Analysis 4

Askua is now going to Shinji's school.

Askua and Shinji turned rivals

However, Misato forced them to work together. In order to synch with the units.

EP 011:

EP 12: 15 years ago, we know the origins of (demons). They were originally on the moon.

Now that the NERV has returned to that dead sea (not the IRL one), the (demon) goes after that area and knocks reception off.

Shinji, Rei and Askua don't want to right a deal.

EP 13: Shinji Rei Askua all go to the new unit 1 and they are forced to go many cleanages,

The NERV got successfully hacked by a (demon) with no failed attempts.

However, NERV was able to fight it off.

EP 14: We know the repercussions of having mech fights. 1st incident was the Evo-01 crushing a little girl by mistake during a fight with Shamshel. Next repercussion was that evacuation has been the norm for Tokyo 3.

Kensuke then talks about Rei and her behavior.

Another repercussion was that the 7th angel destroyed 1/rd of UN navy ships.

NERV reviewed the previous episodes incident, they found no (demon) hacking and they think Ikari is lying

Then we hear an emotional speech about life from Rei.

Rei then attempts suicide by using the unit 00 to break his head,

Shinji woke up in a room again.

EP 15.

Shinji gets trapped in unit 1.

Shinji had a traumatic flashback and that his father killed his wife. Shinji had felt abandoned.

The spirit of Shinji's mom came.

Then from a cube, a possessed Eva, came up.

Misato feels genuinely sad. Misato was scared.

# The analysis 5

ep 17: We learn that Gendel was staging everything.

The code for the truth is 707.

We know now the 4th children

EP 18:

Toji is now the 4th pilot/children

The Eva is revealed to be a kaijin

Shinji is possessed by the Eva. His father lied to him. By saying it was a demon.

EP 19: Shinji was captured and incarcerated over false charges.

Charges are:

Disobeying orders, personal use of eva (wtf), and childish threats.

Dr Ikari is more mean and hostile

Shinji knew about their intentions and Shinji fled.

Kisato tells Shinji that the classroom was staged and it was test to find the 4th child.

EP 20: The eva is cannibalising and is now a kaijin.

Shinji has assimilated into the eva.

They are trying to free shinji by transferring his body

Shinji is stuck in a schizophrenic time loop with him seeing past memories of shinji. he then gets horny with him seeing Asuka Rei and Misato naked. Then he sees his name (in kanji) and people saying it.

Misato is crying and felt powerless.

EP 21: We learn about how Nerv came to be.

These people are scientist who can't accurately talk about reality yet people trust him.

Steel has a conversation (sound only)

We know that SEEL is atheist/communist (they hate hate god and creating one is forbidden). Even they are worried for Ikari.

Ikari and Fuyusuki both were talking about second impact connection to dead sea scroll and Steele and how they hit it's fiances.

We know how the eva started! It was meant to be a god.

EP 22:

Asuka was mind tortured by a (demon).

Asuka has vietnam hallucinations.

Asuka also had been having bad flashback dreams.

# the analysis6

EP 23: Shinji is now a woman, Asuka is now a gamer-girl.

EP 24: Asuka gets childhood flashback.

The fifth child is Kawrou. Most info on him was destroyed, his only info is his birthday being on the second impact.

Kawrou is probably the long lost brother of Rei.

Kawrou said that man cannot make things themselves that man depends on other man. Humans are not gods. However, 1 man is trying to play god (Ikari.)

Kawrou said people use Eva for their own benefits.

They see a heaven's door, and see the Lillith's identity (a kaijin.)

Kawrou tells Shinji and Rei to kill him to save humanity.

EP 24: The harsh reality check comes in.

Shinji killed Kawrou on the basis of being a kaijin.

Shinji's fear of father was because they abandoned him

Shinji fears being rejected.

Shinji is in the middle of nowhere. Shinji was afraid of fighting in it again.

He only does it when everyone else tells him too. Shinji only does it when he gets shelter food and education in return.

Shinji is a dependent cuck.

Asuka is also spoken to. Asuka is rejected by many people due to her bratty karen behavior.

Asuka is afraid of being alone.

Asuka never got the love and affection from her mom.

Asuka grew up in an abusive household.

Asuka's mom committed suicide sometime in Asuka's childhood

Rei is also interrogated.

We are told the philosophy of being a clone, Rei was a being created by Gendel Ikari.

Rei was told that she would fade into obscurity and unknownness.

Shinji is slowly fading away.

Misato was interrogated by the Tokyo army as well.

Misato was obsessed with Ryogi.

# The analysis 7

Asuka has a breakdown from this

We got the result that all the major actors are cucks too.

They want to live in an echo chamber, similar to the leftist today (even those that are fans of this show)

EP 26: The Toku army evaluation continues to 2016.

Shinji is afraid of looking at himself.

We learn that most humans live in packs (major democratic cities) and cannot live on their own.

Most people are fragile beings. That's why humans survive by groups.

Shinji was told that his world is centered on him.

Shinji and Asuka are found out to behave the same thing.

Most people hate Shinji with their honesty.

Now we see concept art for Shinji.

Shinji then sees everything that builds my consciousness.

Shinji ends up in a free world where he can do anything.

However, he was told to stand to the ground, and he lost his freedom. This lesson about losing freedom applies to many events, War on drugs, post 9/11 mass surveillance and the current COVID response

We learn our shape and appearances by observing others.

In a different world

Asuka wakes up Shinji.

Shinji was still a boy.

Rei is a stranger to Shinji in this world.

There are multiple worlds.

Now Shinji breaks free and wants to live in reality forever. Everyone applauds him.

# The End of Evenglion

Shinji is at the hospital trying to wake up Asuka who is hospitalized.

The base is now a lockdown.

Nerv is at risk of being defunct.

The human instrumentally project is how the last 2 episodes came to be. This project is to all human beings into 1.

Misato know the truth about neon genesis evenglion.

Steels shills from United socialist states of america, communist china and the leftie E.U are trying to destroy nerv.

a military invasion was about to happen.

The communist socialist has invaded the base. killing everyone Khmer Rouge style.

Misato kills them with Shinji liberated.

Shinji is afraid of unit 01 and prays to Asuka. Misato hates that. a nuclear attack hits everything.

Steel wanted to cause the third impact.

Now Misato tells Shinji to destroy the EVA.

Asuka is afraid of being killed by the chinazis.

Shinji is no longer want to pilot a mech because he hates killing people.

The commies ecountered unit 1.

They are now doing a ceremony.

The ritual has alot of christanity into them.

Then a massive boom would restore earth

The truth can be hard to stand

Now. Asuka and Shinji attack each other a few moments later. Shinji than strangels her.

We learn that sadness is destroying people.

Both sides get turned into liquid by lobe and Rei. We see the world is absorphed.

After a flashback, shinji ends up in the real world ( orginally 1997 japan)( New York in 2001 for the ADV)(Washington DC for the netflix version).

Now shinji heads back to his world
