'Pride in London'
London LGBT+ Community Pride CIC,
PO Box 71920,
London NW2 9QN

Dear Pride in London organisers,

I write to you to present you with an Open Letter signed by over two thousand members and friends of the LGBTQ+ community in Britain and around the world.

The letter condemns the transphobia that led the parade during Pride in London 2018, it calls for a full apology from Pride in London, it also calls for a change in the Board at Pride in London, to ensure that the failings that allowed the horrific exclusionary behaviour that was front and centre on Saturday never happens again.

Signatories to the Open Letter are as diverse as our community itself, amongst the signatories are politicians, doctors, activists, teachers, trade unionists, prison officers, students, and so many more. There are signatories with long histories of campaigning for Equality, and there are signatories from members of the community who are in the closet.

I sincerely hope you will hear the concerns of the community, that will truly apologise without the ifs and the buts, and that we will see genuine meaningful change, to ensure transphobia is not given a platform at Pride again.

We have united to say there is #NoPrideInTransphobia, I hope you will stand with us.

Yours,

A handwritten signature in green ink that reads "Aimee". The letters are cursive and slanted to the right.

Aimee Challenor
20-year-old student
Photographer
Politician
Trans woman.

Letter condemning exclusion at Pride in London 2018

We the undersigned, members and friends of the LGBTQ+ community, condemn the horrific exclusionary behaviour that took place at Pride in London 2018.

We are saddened that yet again we are having to condemn the actions of Pride organisers for their exclusion and hostility towards the trans community. This is not the first time we have had to do this.

There is no space in Pride for transphobia, trans people pose no threat to cis women, and face frequent abuse and exclusion. Trans people are integral to our LGBTQ+ Community and must be celebrated and protected.

We do not believe the excuse used by Pride in London who claim that allowing transphobes to lead the parade was done in the name of safety. Trans people should be able to celebrate Pride safely, the actions of Pride in London compromised this safety.

We call for a full apology from Pride in London, as well as a change in the Board behind Pride in London, in the hopes that future events do not have similar issues.

We stand proudly with our trans and non-binary friends, many of whom have been at the forefront for campaigning for better LGBTQ+ rights in Britain and around the world.

Signed,

1. Aimee Challenor - Equalities Spokesperson, Green Party of England and Wales,
2. Kate Adair - SQIFF,
