The tyranny continues! The unconstitutional "mandates" to forcefully inject an experimental drug into the arms of unwilling Americans is just one of the myriad actions being pursued by the handlers of biden. Very telling that they didn't mandate the experimental drug for the illegal immigrants (criminals), Congress, or USPS employees. Hmm, if it's so good for everybody to get the jab, why are they not attempting to force everybody to get it? This is all BS, not based on credible and proven real science (not the propaganda coming from the left), and is mostly about government control of We The People - against our will.

biden and his many Puppeteers continue to "fundamentally transform" our previously great Nation into a Marxist/Socialist third world country. We are under attack from our own so-called government - just like the Soviets predicted.

We will stop it in 2022. Stand by for the return to greatness!

It's been a power grab at the lowest hanging fruit from the beginning! It was never about science or protection of citizens-otherwise all federal employees would be included. As well as illegal crossers! It's obvious to anyone with half of their brain functioning that it's an experimental power grab at a certain group.

"Power grab"?

Unbelievable.

Y'all are like a bunch of spoiled children. You want the freedoms that come with the American society but you don't want the responsibility that comes with it.

Come back when you grow up.

Patch,

As you know, govexec is an extremely biased propaganda machine for the left, the democrats, and biden's puppeteers.

They and their sycophants have difficulty handling the truth.

We can only hope that when we continue to present the facts to them that they will eventually realize that they have been duped.

"American" .. Good to hear from someone that believes in "communicating" !

I have asked Govexec (nicely) where their "grant monies" come from. ( HA!)

I know Who they are and Where the come from. Would merely like the "COWARDS" to own up to it.

Patch, thank you!

It's good to hear that you are challenging the leftist bias of [govexec.com](https://www.govexec.com).

Please let all of us know how they respond, if they ever do. Like most leftist organizations, govexec will probably attempt to hide their obvious left wing bias.

Thank you again for standing for the truth!

He is gone but the virus is not contained. More deaths of Covid in 2021 already than in 2020. There is no vaccine, booster or PCR test for the Delta variant or any future variant so vaccinated and unvaccinated are catching and spreading equally.

Should have help in reconstructing the virus. Republican government

in general, we don't get to abandon history and experience for political points. we know how vaccines work, we know how viruses spread, we know republicans seem willing to risk the lives of their voters to "protect freedom."

Lets start with some basic questions:

Who won the 2020 election ?

Will Jfk jr be Trumps running mate in 2024 ?

Is attacking the Capital to overturn an election in the Constitution ?

True or False ? Hanging Pence would be an act of patriotism ?

Perhaps that has something to do with the refusal of Republican states (where most of the deaths were in 2021) to require masks. But no, lets blame the President for decisions made by Republicans.

"Power grab..." "experimental power grab" - so who is grabbing power? Socialists? The CDC? Maybe just the progressives?  
  
Ascribing political takeovers to simple health measures that were also used in the 1917 influenza epidemic is the work of a conspiracy mindset.

You wouldn't know a principle of the Founding Fathers if it was tattooed on your face.  
  
Just to remind other readers, here is the preamble explaining the purpose of the government:  
"We the People of the United States of America, in order to form a more perfect Union, establish Justice, insure domestic Tranquility, provide for the common defense, promote the general Welfare, and secure the Blessings of Liberty to ourselves and Posterity, do ordain and establish this Constitution for the United States of America."  
  
It doesn't say "to allow individuals to do whatever they want." It says to promote the general Welfare. Having a bunch of people carrying a deadly infection does not promote welfare or tranquility.  
  
Perhaps next time you can cite something out of the Federalist papers to back your absurd version of freedumb.

Sorry pal, nice try.

You might want to read the Constitution slowly so you understand that you have the right to say whatever you want - as you just did - even though it is contrary to the Principles embodied in that great document. Your personal opinions are certainly your right to express, but We The People cannot be forced to buy into your unfounded rhetoric.

Have a nice day in your alternative universe.
