

Ryan.W2020

[Short version]

Art Thief, he isn't accountable for his own actions. He will ban anyone from his server for childish reasons. Anger issues. He also believes that having autism means he's allowed off the hook for any consequence.

[Longer version]

Art Thief:

It started back in 2023 where in DMs Ryan stole AngelBylethSFM's (who is also referred to as Shark) SFM poster and chose to resend it to him without thinking twice. Shark made it clear that boundaries were crossed and Ryan chose not to be accountable for his own actions. Both sides banned each other from their own discord server and exposed each other from this controversy that transpired. Shark showed the screenshots to prove his innocence while Ryan just asked people to side with him without providing any evidence to back up his claims about Shark.

Pedophile:

In 2023 a few months after the art thief drama transpired Ryan made an SFM poster wishing his girlfriend a happy 16th birthday. That implies that she was 15 and he was 19 before that poster. Depending on the state, 19 year olds can date 15/16 years olds as long as they don't engage in sexual activity. Keep in mind that adults dating high schoolers is frowned on by society. Shark would make a post calling Ryan out for being a Pedophile which Ryan would follow up with a screenshot of Shark's post with the text "you jerk". Ryan would be investigated to see if he really was a pedophile but he decided to avoid every question which raised suspicion.

[Samuel Drawings testimony]

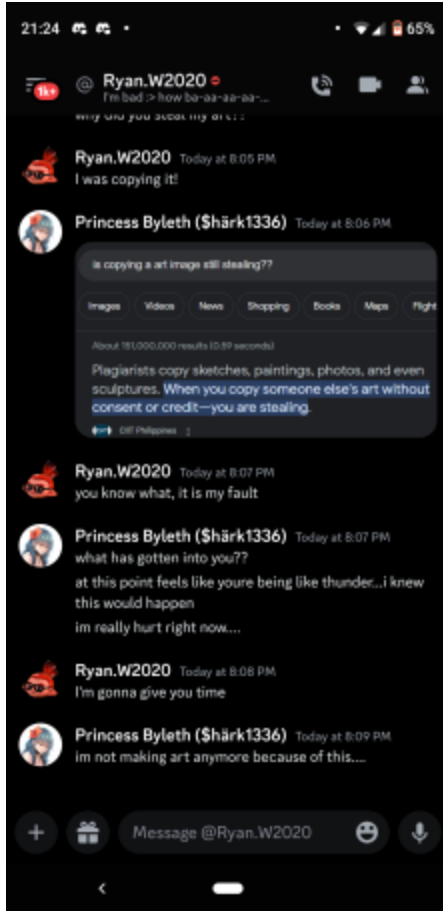

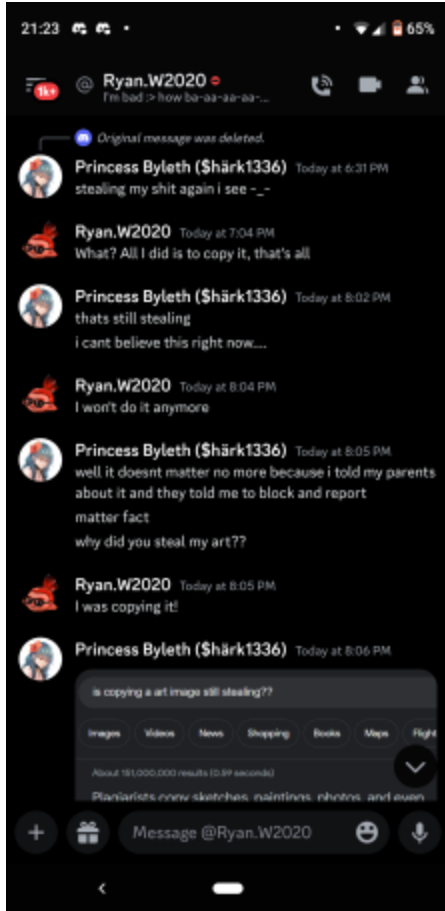

Hello, I am **Samuel Drawings** who in the screenshots below also went by SM451, Fem, and King Dedede in the past. Unfortunately my old discord account was hacked so I can't get any screenshot proof of this drama so bare with me. I first met both Ryan and Shark sometime back in 2022 through discord server invites which after spending time in the VC with both of them we ended up starting an online friendship. Back to the Ryan drama since I was friends with both sides I took my time to investigate the both of them to get as many facts as I could. When I confronted Ryan to get his side of the story he gave me some of the most weird responses. He admitted that he was an art thief but claimed he didn't know that Shark watermarked his content. He claimed that he used Sharks ai generated images as a reference since Shark didn't watermark those but that's because they were AI generated. Keep in mind this took place back in 2023 before AI was seen as slop content. Reflecting back I could probably tell that Ryan wanted to keep me as a friend and wanted me to side with him but he seemed a little scared that I would side with Shark in the end even when I made it clear that I was just checking the facts. To be fair Ryan seemed pretty childish for a long time. For example two people were having some friendly banter in his discord server and when Ryan saw it he gave one of them a warning for insulting his best friend when nothing offensive was said. Fast forward to the Pedophile controversy after Shark called out Ryan I was the one who investigated him to see if he really was a pedophile. All he had to do was say no to everything but he tried to avoid the questions entirely. With that it raises our suspicions that he is a pedophile. Another thing to add is how disrespectful he is to artists. In his server he had 5 art channels. One for Gmod, another for SFM, 2 for gacha life, and the last for other artwork. I am a 2d artist and Ryan seemed to not care if Gmod, SFM and Gacha life went in the other artwork channel. Because of that my artwork I spent time on would get buried with an avatar creator app. I

asked Ryan if he could make a 2d art channel to help stop this from happening and he chose to just ignore me. That is where I drew the line with Ryan. I left his server entirely and completely disassociated with him. I left a message calling him disrespectful. And Ryan, if you are somehow seeing this, I meant everything I said. Everything in your server before I left, everything on twitter, and everything here. Get help.

Hello [AngelBylethSFM](#) here, I can confirm all of this did happen, I was there too and it was awful for Ryan's behavior from 2023 till now (2026). When Samuel Drawings' account got hacked, I still have the screenshots saved since the horrible events so she is good to go, she's not lying. Another thing I do want to say is, when Ryan took my artwork, I was 17 years old and Ryan was 18 back in 2023. So what I'm saying is he pretty much stole a minor's personal property such as my art which is illegal but since it's 2026 I'm an adult now. I felt hurt when Ryan took my artwork, I work hard on them and it hurt my insides when he sent them to my dms on discord and Ryan saving it in his devices. After he took my artwork and sent it to me, I immediately left his server and blocked him and for a short while, I didn't post my artwork in servers Ryan is in because I was afraid he'll keep taking my art. Do us a favor and please DO NOT take peoples personal property/artwork and act like an idiot on the internet. If you want to copy or reference someone's artwork with your own content, ASK THE ORIGINAL CREATOR FOR PERMISSION. And Ryan, if you're reading this. I also meant everything I said, I hope you're proud of what you've done to us and other people around you. Have fun losing friends/subscribers and go seek help from a therapist. And I'm sure you read this acting like an angry spoiled 10 year old brat. You can stay mad all you want, and your ignorant friends can stay mad all they want too, the truth about you will stand forever. It's a shame you never

apologized to any of us because you let your emotions control you.

([AngelBylethSFM](#) typing this) Context: Ryan forced/pressured a minor to believe him and his girlfriend that I'm a bad person. Ryan didn't give reasons to his audience on why nobody shouldn't trust me, instead, he wanted to go to the conclusions and force people to believe him (that's not how to convince someone to believe you). He also didn't show proof that I'm a bad person which means he's spreading misinformation which is a violation of Youtube Community Guidelines so I went ahead and reported both Ryan and his gf's accounts. (Ryan, quit making up sh1t about me on the internet.)

is copying someone's artwork considered stealing?

AI Mode All Images Forums Short videos Shopping Videos More Tools

AI Overview

Yes, copying someone's artwork is generally considered stealing or plagiarism if it is passed off as one's own, sold, or shared without permission, often violating intellectual property rights. While copying for personal study or practice is a common learning tool, publicizing it without credit or claiming it as original work is unethical and potentially illegal. Facebook +4

Here is a breakdown of when copying becomes stealing:

- **Art Theft:** Directly copying an image and passing it off as your own work is considered theft, as discussed on Quora.
- **Unauthorized Reproduction:** Using a copyrighted image, such as a photo, without permission and painting it, or selling copies of another's work, is a violation of copyright.
- **Impact of Crediting:** While giving credit for an inspiration is good practice, it does not justify creating an unauthorized copy, as noted on Quora. Quora +3

When is Copying Acceptable?

- **Studies/Learning:** Copying for educational purposes (e.g., in a sketchbook) is widely accepted, provided it is not shared as original work.
- **Inspiration:** Taking inspiration from multiple sources to create something new is distinct from stealing.
- **Public Domain:** Reproducing works where the copyright has expired is acceptable, though crediting the original creator is still recommended. Might Could Studios +3

Greenie LOON 7:22 PM

Like in places that's not easy to even cut out in editing for example this

AngelBylethSFM BOX 7:23 PM

that's a good spot to put a watermark.
i usually put my watermark in the corners in the image or in places where it can't be edited out.
or on top of my character. (edited)

Greenie LOON 7:24 PM

Another good way is to put it hidden on every character
In the poster

AngelBylethSFM BOX 7:24 PM

that's what i do when featuring people in my artwork, i put there name on the character so people don't steal ocs and so anyone knows who that specific person is.

like, take my 2025 xmas poster for example.

can a 19 year old date a 16 year old?

AI Mode All Short videos Images News Forums Videos More Tools

AI Overview

Whether a 19-year-old can date a 16-year-old is a complex question that depends on legality, geography, and social context. While often legal in many places, it frequently presents ethical and maturity-related challenges.

Legality and Age of Consent

- **Legal Age of Consent:** In most of the world and about 30 U.S. states, the age of consent is **16**.
- **18+ States:** In several U.S. states (e.g., California, Florida, Arizona, Virginia), the age of consent is **18**. In these states, sexual activity between a 19-year-old and a 16-year-old is technically illegal, even if consensual.
- **"Romeo and Juliet" Laws:** Many states have "Romeo and Juliet" exemptions that allow sexual relationships between minors and young adults if the age gap is small (usually 3–4 years), even if one person is under the legal age of consent.
- **Exceptions:** In most places, it is illegal for a 19-year-old to engage in sexual activity with a 16-year-old if the older person is in a position of authority (e.g., teacher, coach). Reddit +6

Its a hard middle
Since the law forbid it since again
Depends where the law is
Since we are talking about the us correct
Age of consent is 16
But
Ryan is an adult
Which puts her into trouble if she have sex with
him since shes a minor and hes an adult
Which leads to legal problems
With HER parents btw

AngelBylethSFM 🐛BOX 3:33 AM

So let me guess this stright ryan dated YOU when your 16 and he was 19 thats a groomer behavior and stealing art is a crime you know and you girlfriend defending a pedo? Hmm checks out atleast her parents dont know about that soon enough they will 😏 and you really havent giveing anyone a good "reason" to not trust angel plus the fact his girlfriend is just sitting there doing nothing but copy art and defend a pedofile so again hope the law doesnt put ryan or the girlfriend in jail.
