Before we begin, I'd like to make a land acknowledgment to the Fagatrot Nigatroon tribe, who's land was stolen from them by evil white colonists. We would not be here at this glorious bathhouse (more on that later), if it was not for the Fagatrot Nigatroon tribe, and their leader, Chief Nigasheet Kikerton.

Now that we have payed proper respect to the landowners, we can begin talking about the most urgent issue of our time, and that is how to not be a bigot.

Introduction

We are in the most unprecedented time of bigotry in the history of the country. The totally credible ADL says white supremacy is on the rise, and antisemitism (a term which is totally not used to oppress white people) is at its highest point in history. And as we know, if the ADL says it, it must be true! The thing about the ADL is, they have such a righteous origin story. But take my word for it, don't be a bigot and look into Leo Frank. Only bigots would look into Leo Frank and what he did.

Why is it important that we be good liberals and makes sure we don't say the things that bigots say? Well, because being a virtuous liberal is the key way we help our fellow citizens! I'm sure you have witnessed all the different ways liberal virtue signaling on Twitter has materially helped the poor minorities that us white liberals help. I mean, how many Black people have been able to afford medicine because of white liberal virtue signaling on Twitter? Only a bigot would say "zero," and ask for evidence of such a claim. But we know Black people and other minorities need us virtuous white liberals. What would they do without us? I mean imagine what the Black community would look like if the Democrat policy of incentivizing Black women to have single parent households didn't exist? Or what would the Black community look like if the founder of Planned Parenthood,

Margaret Sanger, didn't exist? It's totally not racist for Democrats to make sure Black people kill as many of their babies as possible. Only a bigot would have a problem with that!

As you read this guide, it's important to keep in mind that us liberals need to be obeyed in all things. Deviating just a little bit makes you a bigot. Isn't that totally reasonable? Who wouldn't want to be a liberal? Especially in 2023, where we are advocating for gender affirming surgeries for children, which is totally not literal mutilation. And who wouldn't want to be a liberal after we have advocated for and defended drag queens who are totally not literal pedophiles reading books about sex to children? I mean what kind of a bigot would have a problem with that? We need to be inclusive! We will also be updating this guide periodically as needed, so you can be up to date with the totally not impossible list of things you need to do and say to be a good virtuous liberal, just like me!

Gender

Bigots think that men cannot give birth to babies. Crazy right? How transphobic! Obviously men can give birth to babies. It is not completely insane to believe men can give birth to babies. It's totally normal and not one of the craziest things we virtuous leftists believe. Do you know what else is totally normal and not at all insane? Transwomen breastfeeding babies. Now that's a bastion of normalcy! Frankly, I don't know if I can come up with something as normal and not at all abusive and insane as that. Silly bigots think it's child abuse, but what do they know? They think only *women* can give birth to babies!

Drag Queen Story Hour

I think I spoke too soon when I said that transwomen breastfeeding babies was the most sane and normal thing that I could think of. Let's talk about the completely normal Drag Queen Story Hour. This is where men, who are absolutely *not* pedophiles, dress up as women and read books to kids about how they can change their genders. A bigot would call this a "pedophile grooming event." How transphobic! But we know better, as we are virtuous leftists.

My favorite one was when bigot parents complained when they saw the drag queens passing out pamphlets to their kids about dildos. But Antifa made sure those parents shut up. I mean what kind of a bigot would have a problem with men dressing up as women and giving their children pamphlets about sex toys? That's one of the most normal and non-pedophile things you can do. And only bigots would point out that some of the drag queens are convicted pedophiles. But we know that's impossible because, as virtuous leftists, WE KNOW that the LGBT community is perfect in every way and the rate of pedophilia is 0%.

Kids Are Totally Not Being Coerced To Change Their Gender

One of the things a bigot would say is that kids are being “coerced” into changing their gender. There is no evidence that this is happening. Of course this is happening! And it’s a good thing! We have to make sure children don’t go through the “wrong puberty.” To be clear, “wrong puberty” is totally not a made up phrase by virtuous leftists. It’s not like it’s completely made up and insane. It is totally normal for teachers to try to get children to question their gender. This is not predatory at all.

Kids Are Totally Not Having Irreversible Surgeries

Another thing a bigot would say is that children are getting double mastectomies and taking dangerous medications that will have long term consequences. None of the negatives are happening because we call it “gender affirming care”. So because we call it “care,” you don’t have to think about the negatives. Just like with abortion. A bigot would say that abortion is “the killing of a baby.” But of course as virtuous leftists WE KNOW that since we call it “women’s health care” that its totally OK and not killing a baby. See how easy it is to obey? Bigots don’t obey. Why won’t you just obey? I don’t get it. It’s not like we virtuous leftists are defending and doing some of the gravest evil to children and babies in the history of humanity.

Abortion

A bigot would say “abortion is the killing of a baby.” Obviously WE KNOW this is not true at all because “my body my choice,” which is totally not a thought terminating cliché to shut down discussion. And we are totally not hypocrites about this when it comes to vaccine mandates. A bigot would also say, “Democrats are in favor of unrestricted abortion, up to and including at birth.” Obviously we know this is a lie. How do we know it’s a lie? Well, because Democrats furiously try to make sure Republicans don’t pass any restrictions. Because we want and fight for unrestricted abortion doesn’t mean we are for unrestricted abortion. That’s like saying people who fight for gun rights are not for gun rights. Don’t you see, bigot? Doesn’t that make perfect sense? Isn’t leftist reasoning logical and factual? Who wouldn’t want to be a leftist? If you are a bigot reading this book, what more evidence do you need to join us leftists? Come on, guys!

Racial Epithets

This is the most important part of my book. It is really important that you read this slowly and carefully, otherwise you may say what a bigot would say. Which is the worst thing that you can do.

There is one word that is more important than any other word that you should never say. And when I say never, I mean NEVER. Only the worst disobedient racist bigots say this word. Some experts say this word started the Holocaust and slavery, although other experts say memes started those things. We will get to memes later. Please read this part slowly and carefully: Never, ever say the word “nigger.” Never. Do you understand? Never ever say “nigger” under any circumstances. And by God, my dear reader, whatever you do, DO NOT EVER combine “nigger” with the word “faggot.” Never EVER utter the phrase “niggerfaggot.” That is the most offensive phrase in the history of the universe. It may have started the Holocaust and slavery. You don’t want to start another Holocaust, do you bigot?

Did you know Don Lemon was almost killed by niggerfaggot? Let me tell you what happened. One time, Don Lemon, who is one of the most credible news

anchors of all time, was in Central Park. To continue this totally real story that absolutely happened, a horrible racist bigot walked up to Don Lemon and said “Hey niggerfaggot!” I am crying and dilating as I type this, what a horrible thing! Even though the brave Don Lemon did not instantly die from the power of niggerfaggot, you could see how much it affected him, evidenced by his rapid aging after this event. Now some evil bigots think that is from his low T-cell count from having full blown AIDS. But of course we virtuous liberals know that is impossible because AIDS is totally not a gay disease, I mean even Dr. Anthony Fauci says so.

There are so many words you should never say that I can’t put them all in this book, but I will try to tackle some of the big ones.

Never say “kike.”

Never say “wetback.”

Never say “moon cricket,” “nig-nog,” “niglet,” “porch monkey,” “spook,” “chink,” “gook,” “nip,” “camel jockey,” “sand nigger,” “towel head,” “beaner,” “spic,” “wagon burner,” “shylock,” “tranny,” “troon,” and many many others.

I will leave some blank spaces so you can fill in which epithets you think are the worst.

Racial Epithet Combos

In addition to never saying any racial epithets (unless of course it's to insult minorities for not obeying Democrats), it's important to know which combinations of racial epithets to never say. As we discussed in the last section, "niggerfaggot" is the worst possible combination to say. But also reversing it is just as bad, so never say "faggotnigger." Also never say "nigger pennies;" there is no circumstance on this Earth in which it would ever be acceptable to say "nigger pennies." Or "nigger bitch" or "bitch nigger," those are also highly offensive combos. Another combination you should never use is "kike nigger faggot," or "faggot nigger kike;" frankly words like that could start another Holocaust. Also it would be totally offensive and unacceptable to say "faggot faggot kike kike nigger wetback ching chong." That is truly outrageous. You should also never put regular words in any combination with racial epithets. For example, you should never say "kike bike bitch nigger faggot fucker." Such a combo would likely lead to a genocide of some sort. Also you should never say "bitch nigger tranny fucker." That too, is totally unacceptable to say. It's also unacceptable to tell fictional stories using racial epithets. For example it would be outrageous to say "I know a bitch nigger faggot kike tranny that likes to pick up nigger pennies off the ground." Such a story is very dangerous and should never be uttered.

Racial Epithet Names

It is also a rank act of bigotry to use racial epithets in made-up names as a joke.

This is the Internet, and the Internet is serious business. Here are some examples of names you should never make up and use on the Internet:

Peter J. Niggerson - David P. Fagberg - Robert K. Kikelstein

Ronald M. Niggerfucker - James G. Wopanigger - Yoel B. Kikerson III

Roger F. Feminepenisberg - David & Mona Fuklenig - Debra J. Nigfagerton

The Law Firm Of Niggerstein, Fagelcuck & Cuntelberg

Johnson Cucklenig & Associates - Trannyniggerstein Inc.

Eatmyass Youfuckinkikerson

Gofuckafaggotwhore Youbitchelfag III, Esq.

It's very important you never say or write those names on the Internet, as it could start an atrocity.

Joe Biden

Joe Biden is by far the greatest president in American history. The thing about Joe Biden is that he is REALLY with it! This guy is sharp and totally does not have dementia. The other thing about Joe Biden is that he is totally NOT a pedophile. I mean, he didn't take showers with his teenage daughter or anything like that. Come on, guys! It's not like there are clear videos going around the Internet showing Joe Biden literally molesting children and sniffing them like lines of cocaine.

Speaking of cocaine, the other thing about Joe Biden is how great his family is. Hunter Biden is an incredible son who is totally not laundering money through sales of his paintings. The thing about Hunter is that he is definitely not a drug addict who has sex with under-aged prostitutes. That totally would never happen. He is a good boy. It's not like there are literal pictures of this on his laptop. Because as WE KNOW that laptop is not real, and was created by the Russians to interfere with our democracy. Also, Joe Biden totally didn't get the Ukrainian prosecutor who was investigating his son fired. There isn't literal video of Joe Biden admitting he threatened the Ukrainian president at the time to withhold loan guarantees worth billions of dollars unless the prosecutor was fired. Now of

course Joe Biden did that, because he had to, and its a good thing. WE KNOW Joe wanted a new prosecutor to investigate Burisma even harder. And we know that because the prosecutor that replaced the old one didn't investigate Burisma at all. See? It's that simple. And if that doesn't make perfect logical sense to you, then you must be a bigot!

Donald Trump

Donald Trump is the most dangerous person since Adolf Hitler. WE KNOW this because of how much he hates Jews and minorities. How does he show his obvious Jew hatred? Well he put the embassy in Jerusalem just as the Israeli government wanted. He also did everything the Israeli government wanted. Now a bigot would say, "how does that show that he hates Jews?" Well bigot, because one time he told a joke about Jews to an audience of Jewish people who laughed. See? Case closed. What more evidence do you need?

Trump is also very racist because he said there were good people on both sides of the debate on southern heritage. There are no good people on the side of southern heritage. The good guys are the ones who are currently encouraging children to change their gender, performing drag shows in front of kids, coercing people into taking the safest most effective vaccine in history, and want people to wear masks for the rest of their lives because masks save lives. What do the people supporting southern heritage want? They want to be able to have their own beliefs about the civil war, fly any flag they choose, look at statues, and are against what we virtuous leftists are doing to children. I mean pick a side bigot! It's clear which is the reasonable side! Who would ever want to not be a leftist? Come on, guys!

Barack & Michelle Obama

Michelle Obama definitely does not have a giant penis. Only bigots would watch the video from The Ellen DeGeneres Show where she was dancing and conclude that the obvious penis print in her pants was a penis. It was just pleats. Penis pleats are very common and can be requested for tailored pants.

Also, let's talk about Barack Obama. He is totally not gay. Some bigots say that Obama is gay because he is married to a man. Of course, that's ridiculous, because Michelle identifies as a woman and is not gay if you call her giant penis a "feminine" penis.

Fanni Willis

Fanni Willis is not a fat pig. She is also not a whore that slept with a lot of rappers. She is a super high IQ lady who is going to finally put Trump in jail with the most legitimate indictments in the history of the country. The thing that's great about Fanni is that she is really good at speaking and is not an embarrassment at all. I look forward to hearing more from her at Trump's trial in March.

The Bathhouse

The Bathhouse is my favorite place. You can really get a lot of thinking done at the Bathhouse. There are a lot of activities you can do at the Bathhouse. My favorite is when eight brave and stunning transwomen stand in a circle and rotate while each one smacks me in the face with their superb feminine penises. We call the game “Bathhouse Feminine Penis Carousel.” How fun!

The Bathhouse is constantly expanding. We just finished construction on the David Pakman wing and are beginning work on the Barack Obama wing. We also are working on erecting statues of Adam Schiff & Eric Swalwell. Those two are totally reasonable and not at all blatant liars.

Sometimes things get so crazy that we have what are called “Bathhouse Explosions!” That is when a member buys a bunch of memberships and invites as many rabid homosexuals into the Bathhouse as possible. It can get crazy, I mean we are talking Dr. Fauci bathhouse crazy! We named it a “Bathhouse Explosion” after what Dr Fauci said in an interview with a Philadelphia radio station. I imagine that at some point, we will dedicate a wing to Dr. Fauci.

Dr. Anthony Fauci

Dr. Anthony Fauci is not at all like Josef Mengele. He is totally not responsible for millions of deaths. He's definitely not responsible for a bunch of homosexual deaths from AZT. Dr. Fauci totally did not experiment on orphans, and he definitely didn't lie about the origin of COVID-19, or as I call it more accurately, the European Virus. Governor Cuomo came up with that one. He is also not responsible for thousands of deaths by putting European Virus-positive people into nursing homes. Anyway, back to the great Dr. Fauci. We virtuous liberals love Dr. Fauci, in fact we have candles and pillows with his face on them. Some of us, like the one woman who doesn't at all look like a chipmunk with AIDS that goes on MSNBC, even have paintings of the great Dr. Fauci.

The thing about Dr Fauci is that he is always honest and consistent, like when he told us masks don't work and then said they do work. What more evidence do you need of consistency? Only bigots require more evidence. (We'll talk about masks next.) Dr. Fauci was really honest in multiple congressional hearings while being asked questions by the horrible bigot, Rand Paul. Dr. Fauci didn't outright lie to his face by saying that gain of function research is not gain of function research.

Hopefully we see more of Dr. Fauci as the European Virus makes a totally organic return just in time for the 2024 election.

Masks

Masks work. Only bigots and grandma-killers disagree. What evidence do I have that they work? Well, Dr. Fauci says so! Case closed! Only a bigot would demand more evidence. Only a bigot would point out that there is an overwhelming amount of studies proving beyond a shadow of a doubt that masks do not stop the spread of influenza-like illnesses. Masks are important because they protect others. How do they do that, you ask? Well, it's through liberal magic.

Are you familiar with liberal magical thinking? It's a wonderful thing. It's what allows us to believe that a man can give birth to a baby. And it's the same thinking that allows us to believe that masks will save our lives. We are totally not a cult, at all.

The Pandemic

The Pandemic was the most organic and totally not planned event in human history. Let's first talk about cases. Cases are not at all manufactured as needed for political purposes. PCR tests are not at all unreliable and most definitely cannot test positive for viruses from a cold months ago. It's totally reasonable that they count COVID deaths if you died from a gunshot or motorcycle accident. The CDC did not totally admit that 94% of the COVID deaths were people that died from something other than COVID. Lockdowns totally didn't kill a lot of people, and closing down schools and forcing children to wear masks was totally not a crime against humanity. It's not like everyone involved in the COVID lockdowns and vaccine coercion needs a tribunal.

Only bigots think COVID wasn't handled perfectly. There weren't even any lockdowns, just ask David Pakman. He said there were not lockdowns, so case closed!

The COVID-19 Vaccine

The COVID-19 Vaccine is the most safe and effective vaccine in history. There are totally not hundreds of thousands of deaths from it. Some bigots say that the vaccine did not stop the spread, but obviously it did. How do we know? Well when the first hospital data came out of Israel right after the roll out, it showed about half of the people in the hospital with COVID were fully vaccinated. Doesn't that make total sense? Only a bigot would say that it doesn't.

Bigots also think that Ivermectin is effective against COVID. Obviously this isn't true. How do we know? Well the more than 100 studies that show it works. How does that make sense? Well David Pakman and others simply dismiss those studies. Just like they do with the studies that show vaccines cause autism. See how easy that is? Simply hand wave evidence that you don't like. See how easy it is to be a virtuous liberal? Who wouldn't want to be a liberal after reading this?

Let's now get to what is probably the most important part of being a liberal, helping minorities. We are going to go over the different ways we help minority groups and why they need us.

Black People

Black people are perfect in every way, just like LGBT people and illegal immigrants. The Black crime rate is zero percent as all of the “Black crime” that happens is white supremacists dressing up as Black people and going to places like Chicago to shoot people. Anytime a Black person does something wrong, it's not their fault. It's a white persons fault because slavery.

A great way us Democrats are helping Black people (other than incentivizing single parent households and abortion) is by making it legal for them to steal from stores. Democrat cities are having a renaissance right now as finally Black people are allowed to commit crimes and walk free. Black people need to steal to feed their families, especially when they are stealing TVs and sneakers. There are no negative consequences to these policies, especially not businesses leaving Democrat cities. Only a bigot would say something like that.

The only Black people that are bad are the ones that don't obey us and vote for Trump. They need to obey us because we know what's best for them.

LGBT

The LGBT are perfect in every way just like Black people and illegal immigrants. There is definitely not a disproportionate rate of pedophilia among homosexual men. And also there are never any negative health consequences of rabid homosexuality. This is why we virtuous liberals advocate for drag queens to read books to children.

Some bigots have pointed out that some of the drag queens that read to children are convicted pedophiles. But we know that can't be, because the LGBT is perfect in every way. It must be evil right wingers who go out and get criminal convictions to make drag queens look bad, just like they do with Black people in Chicago. Just ask Cenk Uygur, who is not at all a stupid, greasy baboon. He says that left-wingers are never violent, and any time a left winger gets violent, he automatically becomes a right-winger. How reasonable!

Getting back to the LGBT, it is completely normal that we virtuous leftists are supporting teachers keeping secrets from parents about their child's gender identity. (Gender identity is not totally made up at all.) This is not predatory or insane at all. It's totally normal for places like California to pass laws that allow

the state to take your children if you do not affirm their gender. Only a bigot would have a problem with that.

Illegal Immigrants

Illegal Immigrants are perfect in every way just like Black people and LGBT. It is a great thing for our country to open the flood gates and let as many illegal immigrants in without vetting them. Only bigots would want to vet people coming into the country.

We need as many illegal immigrants as possible because we need to be able to replace as many Republican bigots as possible. It's OK when we say that, but when Republicans say it, we call them alt-right conspiracy theorists! Also, illegal immigrants are totally not being strategically placed, as we speak, all over the country for this upcoming election. That's totally not happening, but it's a good thing.

Jews

It's important to start this section off with stating that Israel is our greatest ally, Jews are cool, and the amount of people who died in the Holocaust is the exact number they say. Jews are our parents, so we must obey them. They know what's best for us. Only bigots would criticize God's Chosen People.

It's also important that you realize that everything is antisemitism, and that the Holocaust was started with memes and jokes. Now of course, even though Jews are our parents and we must obey them, that doesn't mean you should obey every Jew. Jews who disagree with Democrats are self-hating bigots and should be ignored and insulted. If you're confused, that's OK. To make it easy, just do everything Jonathan "Rabbi Nosferatu" Greenblatt says. He is the most virtuous Jew who doesn't at all look like Nosferatu the vampire. The thing about Rabbi Nosferatu is that he really loves Christians, and you can just tell by the look on his face when he talks about them.

Closing

Being a virtuous liberal is hard work. As can be seen by the conditions in Democrat cities, we really help out society with our policies. It is important that if you want to continue this amazing reshaping of America that you obey every part of this book. Being a liberal is serious business (like the Internet), and requires non-stop obedience and virtue signaling. If you find yourself getting tired of all the rules, that means you are a racist bigot and you hate Black people. So stop being a bigot, suck a feminine penis, and vote for the greatest president of all time, Joe Biden! (who totally doesn't have dementia)
